

Rolf Don

Curriculum Vitae

I am an inquisitive Computer Engineering student with an affinity for programming and IoT. Throughout the duration of my course, I have found working on projects to automate and improve others' lives very rewarding. I am eager to continue my journey in IT and undertake training and gain experiences to advance my career.

> Education

2018 - Today	Student Computer Engineering Rotterdam University of Applied Sciences I am currently a second year student. In my major, I am working on varied projects including IoT, electrical engineering and programming.
2015 - 2017	Student Systems Administration ITVitae Learning, Amersfoort I followed a study and working course to start employment as a systems administrator. Throughout my studies, I have learned a lot and worked with many open-source operating systems like Ubuntu Linux, RedHat Linux, Debian Linux and SUSE Linux.
2014 - 2015	Student Molecular Science and Technology TU Delft
2013 - 2014	Student Computer Engineering TU Delft
2006 - 2013	VWO NG-NT Lentiz Groen van Prinstererlyceum, Vlaardingen I took extra classes of Latin and Ancient Greek. I also followed extra English classes for an IB English A Language & Literature HL certificate.

> Employment History

2019 - Today	Teaching Assistant Rotterdam University of Applied Sciences I help assist teachers teach during class. I also teach extracurricular to help overachieving students challenge themselves.
2015 - 2016	Intern Systems Administration Fox-IT, Delft I worked on an assignment involving optimizing and documenting Fox's internal JIRA-installation, and gave advice on how to better deploy their software stack in a closed-off network. I also worked on automatic deployment of new machines using Puppet.
2014 - 2017	Volunteer De Kroepoekfabriek, Vlaardingen I worked at the front of house to control the lights during a concert. I also helped at the bar to work as a service employee serving beverages.
